\* Consult factory on sizes beyond those listed above.

## Product Features & Specifications

- Sections are 2" thick roll formed 24 gauge. End stiles are fastened with a Tog-L-Loc® joining system for superior holding power.
- Doors are finished with a three coat process in white or brown and features a deep rib design with a smooth finish.
- Hardware is manufactured out of hot dipped galvanized steel. Hinges are 14 gauge and rollers are 10 ball bearing steel.
- Track is available in 2" or 3". Vertical lift, high lift, roof pitch, and low headroom options are available. Consult EZ Glide for details.
- Doors are balanced by a torsion spring counterbalance system constructed of oil tempered torsion springs. High cycle spring options of 25,000, 50,000 or 100,000 are available.
- Doors come standard with an interior slide lock.
- Windows are available in rectangular shapes of 12" x 24" or 6" x 24". These are available insulated or uninsulated. A Full Vision option in double strength glass or plexiglass is also available.

## Construction

- A. Finish Painted Coat
- B. Primer Coat
- C. Galvanized Layer
- D. Steel
