Long Service Life & Savings

Choose the overhead door that works as hard as you do. EZ Glide's EZ Therm polyurethane insulated commercial doors are constructed with durable galvanized steel and heavy-duty hardware to ensure a long service life. Plus the environmentally safe polyurethane foam and sealed thermal break provide excellent insulating value that enables you to save on heating and cooling costs.

Make a Statement.

Insulated Windows

8" x 24"

12" x 24"

16" x 34"

Standard Features

- Standard sizes: up to 28' 2" wide
- Hot-dipped galvanized interior and exterior
- Galvanized end stiles
- Double end hinges on 14' 2" wide and over
- Tongue & groove section joint
- Thermal break chemically sealed & bonded
- CFC free polyurethane foam
- Twin seal on bottom
- Heavy-duty hardware
- 1-7/8" thick insulation (R = 16.3; U = .06)

Product Features

- Doors are finished with G-60 hot dipped galvanized steel skins, a baked on primer and a finish coat of polyester paint in either white or brown.
- Polyurethane foam insulation provides an exceptional R-Value and is environmentally safe and friendly.
- Chemically bonded and sealed thermal break - maximizes door insulating efficiency by preventing heat transfer.
- Continuous double steel reinforcement hinge strips allow for use of industry standard full size hinges.
- Hinges are 14 gauge and rollers are 10 ball bearing steel.
- Galvanized track is available in 2" or 3". Vertical lift, high lift, follow the roof slope and low headroom options are available.
- Doors are balanced by a torsion spring counterbalance system constructed of oil tempered torsion springs. High cycle spring options of 25,000, 50,000 or 100,000 are available.
- Doors come standard with an inside slide lock.
- Insulated windows are available in rectangular shapes of 8" x 24", 12" x 24", or 16" x 34". A full vision window option in insulated sealed glass is also available.
